

## ANNUAL REPORT

Subject : Minor Project - **Prastanatraya commentaries in Malayalam - A study**

Ref : File No. MRP (H) 927/09/KKE 029/UGC - SWRO dt. 30.11.09

I am glad to inform your good self that the Research work covered by the above reference is being attended to with sincere enthusiasms and expedition and considerable progress has already been achieved. In this connection, I would like to bring to your kind notice, the following aspects.

The voluminous and profound nature of the Prastanatraya is by itself highly challenging and deeper and deeper levels of research bring to light related complexities, the study of which is a sine qua non ( essential and unavoidable) for a meaningful comprehensive and perfect Report.

Doing this Project in a short period is a Herculean task. I held discussions with a lot of Scholars acknowledged me a lot of information which form the baseline for this project work.

Interim Report will be submitted without much delay but to the preparation of the Final Report extension of time and further grant of financial assistance are absolutely necessary.

I shall be much obliged if the respectable authorities concerned of the UGC consider all the above difficulties and pass appropriate favourable orders under intimation to me.
