

Major Equipments

- UV visible spectrophotometer double beam [Perkin Elmer, USA]
- High Speed refrigerated centrifuge [Eppendorf, Germany]
- Ultra low deep freezer -86°C [NBS, USA]
- -20°C deep freezer
- Thermomixer [Eppendorf, Germany]
- PCR machine [Eppendorf , Germany & MJ, USA]
- Electrophoretic unit & Blotting [GE Health care, USA]
- PCR cooler [Eppendorf , Germany]
- Binocular research microscope with digital camera [Leica, Germany]
- Stereo microscope with digital camera [Labomed, USA]
- FT – IR spectrophotometer
- Gouy balance
- Millipore RNAase free water purifier
- Vaccum coating unit
- Nanovoltmeter & ammeter
- Rock thin sectioning machine & rock cutter
- Ultrasonic cleaner
- Sediment sieve shaker
- Peterological microscope
- Laminar air flow chamber
